Subject: NEMACUR 15 % Granular, EPA Reg. No. 3125-236  
NEMACUR 3, EPA Reg. No. 3125-283  
Pesticide Petition Nos. 6F1693 & 6H5109  
Use on Potatoes, Sweet Potatoes, Tomatoes and Yams

Dear Ms. Giles-Parker:

The Agency's September 2, 1993 letter indicated that Chemistry Branch I - Tolerance Support recommends against the proposed tolerances because residue data on file are no longer acceptable by current registration or reregistration standards. As a result, Miles has decided not to pursue registration of NEMACUR 15% Granular and NEMACUR 3 for use on sweet potatoes, tomatoes and yams at this time. Therefore, we would like to withdraw sweet potatoes and tomatoes from Pesticide Petitions 6F1693 & 6H5109 without prejudice to a future filing. Enclosed are revised Sections B and F, dated 9/23/94, in which sweet potatoes, tomatoes, and yams have been removed. We are also submitting revised applications with draft labeling, dated 9/15/94, in which sweet potatoes, tomatoes, and yams have been removed.

If you have any questions concerning this request, please contact Mr. Melvin Tolliver of my staff at (816) 242-2150.

Yours very truly,

MILES INC.
